1. This Office action is in response to the amendment filed 5/10/05.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-17 are allowed.
4. The following is an examiner's statement of reasons for allowance:

There have been methods to detect soft errors in microprocessors for some time, such as the one taught by **Jordan et al** [U.S. 6,785,847]. However, there is no method or device that consists of a plurality of concatenated latch units with comparators, a parity bit latch connected to the comparator of a last one of the plurality of latch units in conjunction with a parity bit comparator in communication with the latch and comparator of the last one of the latch units for detecting a parity bit flip. This combination is considered novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
